

DO YOU WANT OIL NEAR PHOENIX?

We Have Done Our Part! Will You Do Yours?

We want everyone to visit our location, see the big equipment we have installed (it's all paid for), and be convinced that we are now ready to drill for oil. If you have a friend who has had experience in an oil field, bring him along—we like to meet oil men—so far, they have all invested with us.

We have done exactly what we promised—put up our own money—bought and erected a standard rig, and now we want you to help us go down after the oil. Remember, every big oil field in this country had to go through the same period of development, and just think what it means to Phoenix, the Salt River valley, and Arizona, if a few thousand dollars will tap a reservoir of the precious liquid. Practical oil men, and government scientists, unite in saying that every indication is good—that the outlook for oil is more than favorable.

We are making no promises; we simply guarantee that your money is as good as ours—that it will be expended carefully and intelligently and that if we win, your dollars will share with ours in the big profits. No promoters' stock, no agents' commissions to water this concern. But \$32,000 of the \$70,000 Capital Stock will be sold, and the proceeds go toward developing the property. A good portion of the stock has already been subscribed—the remainder is being sold so that the drilling when started will be continued night and day for at least 4,000 feet, or until oil is struck.

AMERICANS NOW SEEKING FREEDOM

(Republican A. P. Leased Wire)
 PARIS, Sept. 2.—Some American volunteers—mostly married men—have recently sought the help of the American authorities in Paris to free themselves from the military obligations they contracted in the French Foreign Legion or French aviation corps. The authorities have had in all cases to explain that it is impossible for them to intervene. The American volunteer who takes service as a belligerent against a country in friendly relations with his own loses the right to the protection his country would be bound to give him if he had not identified himself with a belligerent. He does not lose his American citizenship, but it is so far non-existent for the time being that its possessor does not recover the rights and privileges it confers until the war ends.
 The American legionary or aviator with the French forces does not swear allegiance to France; he only signs a declaration binding him to obey the French military authorities. The American who volunteers with the British army is in a different position, for he has to swear allegiance to King George.
